Step 1

To start this fabulous Holiday Card, I sized the ornaments image 4"x4". Print twice on Hammermill® 100lb. White Coverstock.

Step 2

Color as desired. I chose to use Copic® Markers. The Colors are listed above.

notes

Step 3

Fussy Cut one (1) image.

notes

Step 4

I applied Nuvo® Crystal Drops-Ivory Seashell to the Red Ornament. (FYI- I used a pointed tool to spread on fine lines).

Step 5

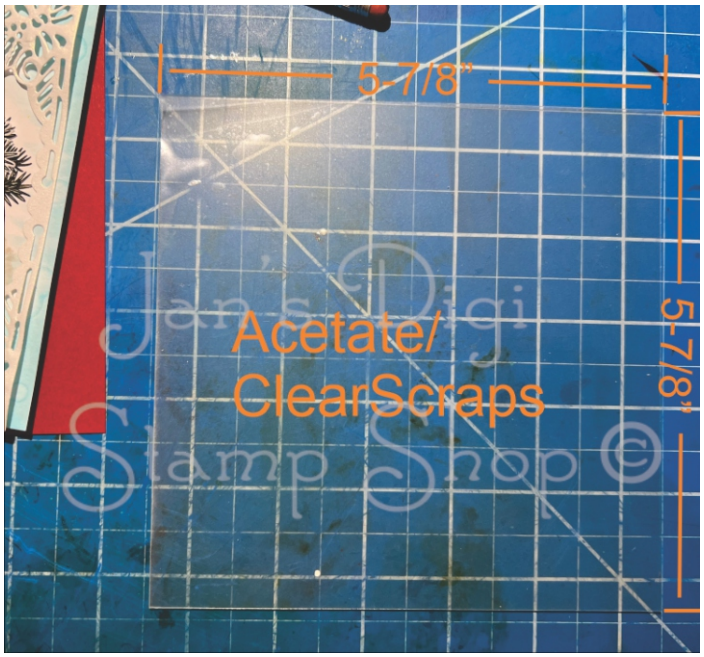
Cut one piece of Clear Scraps Acetate to

5-7/8"x5-7/8".

Cut two (2) pieces of Red Solid Core Cardstock to

5-7/8"x5-7/8".

notes



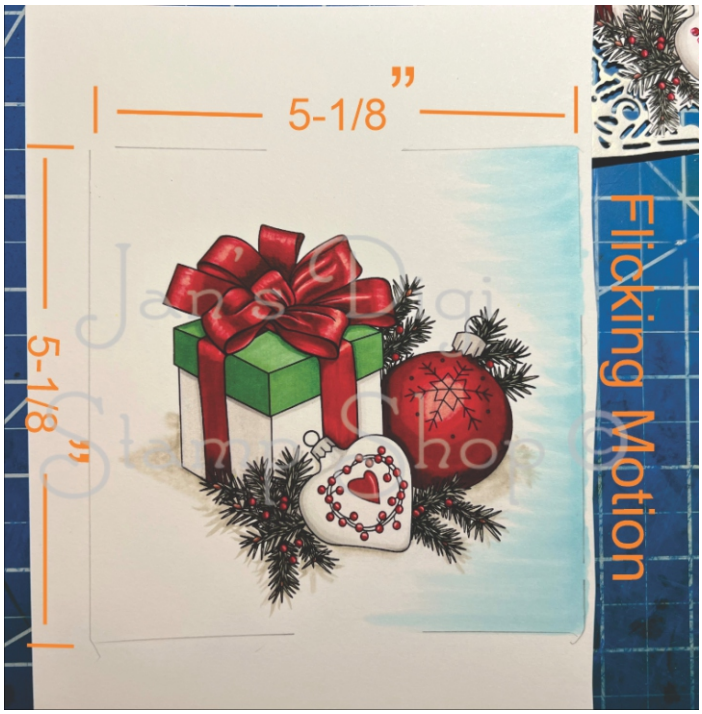
Step 6

Using the Amy Design® Christmas Baubles Frame Die centered on the White Pearlized Cardstock run through the Big Shot®. Repeat using one of the Red Solid Core Cardstock Squares.

Step 7

On the second image draw a 5-1/8"x5-1/8" square.

Using a flicking motion of "B00" from the outer edges on all four sides. Cut to size.



notes

Step 8

Run the fussy cut and die frame through the Xyron® Create.
Adhere the outer border of the Red die cut to the Clear Scraps-Acetate (5-7/8"x5-7/8") then adhere the Pearlized® Die Cut inside the Red border to the Clear Scraps-Acetate.

Step 9

Adhere the square image centered on the last Red Solid Core Cardstock Square. Align the acetate over the square image and adhere the fussy cut aligned with the image below.

Apply four (4) rows of Foam® Tape to the backside of the acetate

notes

Step 10

Sprinkle on the acetate several snowflake sequins, iridescent sequins and white sequins from your stash.

I sprinkled a few drops of 91% Alcohol on the background of the square image.

Align the two squares and adhere.

Now you have a large shaker...

Step 11

Adhere the card front to the (5-7/8"x5-7/8") card base with the fold at the top.

OPTIONAL: On the backside of the card I adhered the Red Amy Design Christmas Baubles Frame centered with a Name plaque.
